Upcoming Events

5 April (Fri): 5 pm Locat. TBA

- Mentor training session and general chapter meeting.

MANYMENTORS AT DARTMOUTH- ENCOURAGING AND INSPIRING THE NEXT GENERATION OF STEM PROFESSIONALS THROUGH PEER SUPPORT

Hi Dartmouth Mentors!

It's been a long path, but we are excited to announce that we have officially formed our first public school partnerships and can now properly train members to work with minors- that means it is finally time to mentor!

Our first partnership will likely be with Mascoma High School, located in Canaan, NH. Many students at the school get to seventh grade before taking STEM classes, and we were contacted directly by a teacher there looking to get a mentorship started. We will still use our online mentoring platform as a primary means of mentor-mentee communication, but we will also take advantage of transportation available to graduate students to create a physical presence at this school.

At this exciting juncture, we ask everyone interested in mentoring with us to complete their ManyMentors profile (see below) and attend one of our required training events. If you have difficulty making the upcoming training session, please be in touch so we can accommodate you!

Happy Mentoring!

-ManyMentors at Dartmouth Team

OUR MISSION- ManyMentors is a nonprofit founded in 2011 to match underrepresented middle and high school students with STEM mentors to “make opportunities in STEM become more visible, valuable & viable.” **We use a mobile app and online platform to connect mentors and mentees weekly from one term to over a year to discuss STEM and education prompts suggested by ManyMentors- the length of commitment is flexible to your schedule. We are looking for dedicated individuals with a passion for STEM and education to join our chapter. You will have the option to be a mentor, help us recruit additional mentors and mentees, and assist with local and remote mentee events. Expected time commitment starts at only 15 minutes/week. Interested in learning more? Contact Avery Tishue (avery.tishue.gr@dartmouth.edu) or Hannah Margolis (hannah.k.margolis.20@dartmouth.edu).**

JOIN US!

Become a Mentor at manymentors.org

Get ready to mentor by completing a profile and background check at manymentors.org and becoming a member on our Orgsync page. Mentors have the opportunity to directly impact the STEM paths of our mentees via weekly online communication lasting from one term to over a year. To get started, see the Mentoring Quick Start Guide on Orgsync. Please note that sign up occurs in multiple steps- regularly check your email to proceed to the next one. **If you get stuck or are unsure where you left off in the signup process, contact Ariel Lee (ariel.lee.21@dartmouth.edu) or another officer team member.**

Attend a Training Session

Enjoy free pizza and get qualified to mentor at our training session April 5th (there may be other sessions throughout the term based on interest). Mentors must complete an online waiver to work with minors- we will walk members through this quick form and also accelerate the process of making a MM profile.

Carpools to Schools

Through GSC recognition, we have increased our number of graduate mentors, many of whom have vehicles on campus. **As soon as we confirm our first partnership and set up online matches, we'll begin organizing carpools to bring available mentors to meet up in person with mentees.**
